from which the sd tpob bears N $45^{\circ}07'$ W
to the tpob; EXC Primary State Highway No. 14

Property across from Rodeo Drive In Theater
and adjacent easterly to Sylvan Products

Dear Mr. Marler:

The above described tract appears to lend itself to the disposal of garbage by the landfill method except for one main point which is contrary to the Kitsap County Ordinance No. 10 and to the Rules and Regulations of the Washington State Board of Health Chapter .50.120 Paragraph (2) which is quoted for your information.

".50.120 Disposal of Garbage, Trash, Rubbish, Offal, Dead Animals, and Manure. Paragraph (2) Methods of Disposal.

Garbage, offal and manure; or rubbish, trash, and ashes mixed with garbage, offal or manure, shall be disposed of by incineration, burial, sanitary fill or other method approved, and within a time limit set by the health officer. Such material shall not be disposed of by being deposited in any ditch, gulch, ravine, river, stream, lake, pond, nor upon the surface of the ground on any highway, or within one hundred yards of any highway, or within one-half mile of any habitation, where it may become a nuisance or menace to health through the breeding of flies, harboring of rodents, or pollution of water."

It is our belief that this area is within one-half mile of the nearest habitation.

We will also need proof that the area is zoned properly for the operation of a sanitary landfill.

Very truly yours,

DEPARTMENT OF PUBLIC HEALTH
Bremerton-Kitsap Sounty

J. A. Weigel, R.S.
Chief, Division of Sanitation
